SUBSCRIPTION SUITE

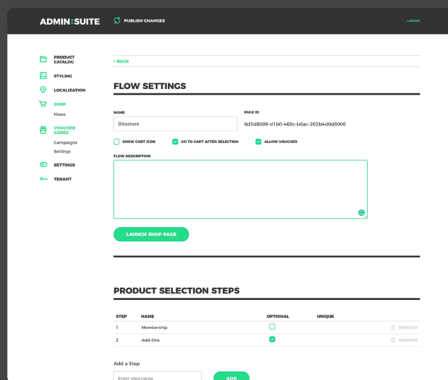

# The leading **subscriber acquisition** system

The Subscription Suite enables you to enhance every single subscriber journey through customer self-service, partner sales and quoting.

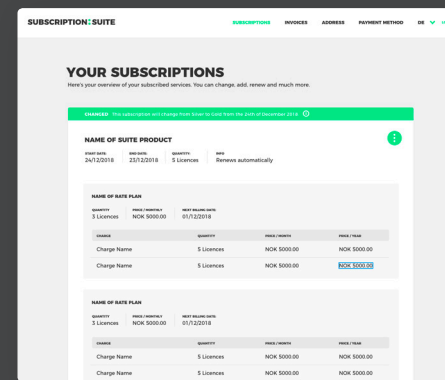

# SUBSCRIPTION SUITE

## Main **modules** in a nutshell/

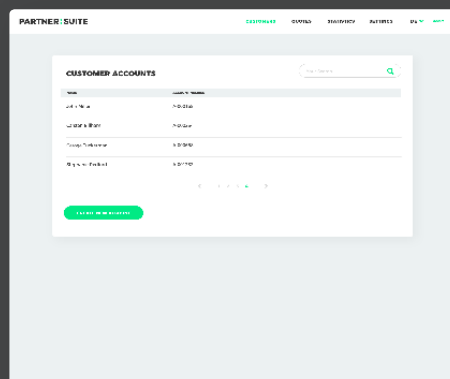

### Core engine

Administrative backend, flexible configuration, API, hosted services, rules, validation, workflow engine, user management, and integrations.

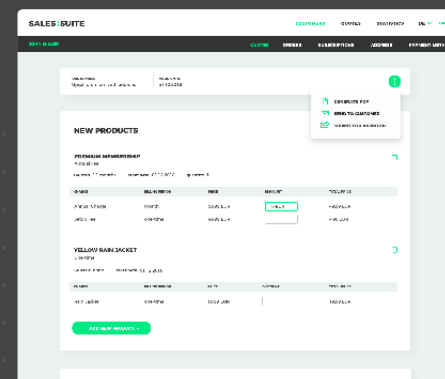

### Customer self-service

Hosted pages for product selection, shopping cart, checkout, customer portal, digital quote acceptance.

### Partner and reseller portal

Allows partners and resellers to manage their customers and subscriptions. Invoices can be sent to partners or customers.

### Sales portal and CPQ

Integrates with CRM systems and allows to model quoting processes including PDF generation or digital quote acceptance.

## SUBSCRIPTION SUITE

# Selected core **features/**

Complex product dependencies and bundles

Validation rules

Workflows and automation

User management and SSO

Multi-language and multi-currency

Voucher codes and discounts

Cascading amendments

Integrations, e.g. with CMS, CRM and subscription management
